

OCTOBER 2022
**CYBER SECURITY
AWARENESS MONTH**

**SEE YOURSELF IN CYBER
TOGETHER**
WE MAKE IT SAFER

TOP 10 DEFINITE WAYS TO DECLUTTER YOUR CYBER SECURITY HABITS!

01

STAY EDUCATED ABOUT EVOLVING CYBER THREATS

This is the least you can do to stay safe online, as this will help you take immediate actions against possible attacks.

02

BACKUP & SYNC YOUR FILES

In this digital era, a secure backup can always give you a sigh of relief as it can help you deal with potential cyber threats.

03

ACTIVATE SECURITY PROGRAM & TOOLS

Don't hesitate to invest a little extra in anti-virus or malware tools rather than losing your valuable data.

04

FOLLOW SAFE BROWSING HABITS

Stay cautious and vigilant online, practicing safe-browsing is the first step towards understanding cyber security.

05

KEEP DEVICES UP TO DATE

The more you keep your devices updated, the more secure you are against viruses, malware or other threats.

06

WHEN IN DOUBT LEAVE IT UNCCLICKED

Never be in hurry to click any link or email that seems too good to be true online.

07

STRONGER & COMPLEX PASSWORDS KEEP THE HACKERS AWAY

Your password should be like a puzzle that only you can solve!

08

GIVE THAT ADDITIONAL LAYER OF PROTECTION TO YOUR DEVICE/ACCOUNTS

Turn on Multi-factor authentication and trick away the hackers and intruders from entering your personal cyber space.

09

LOOK FOR THE 'S' IN HTTPS FOR A SECURE WEBSITE

Whether you're logging in, making a payment, or just entering your email address, check that the URL starts with 'https'.

10

ENSURING DEVICE SAFETY IS ALL ABOUT GOOD BUT WISE HABITS

Never leave your device unattended. Keep them locked when away from laptop screens.
