Trained in: **Mumbai**

- DSCI organized a **cohort of 15+ Global Capability Centers (GCCs)** at the NAB Innovation Centre India to exchange insights on strengthening cyber capabilities within GCCs. The discussions led to shared strategies on talent retention, leadership-driven adaptability, and a proposal to establish a Special Interest Group (SIG) for Threat Intelligence to foster collaboration and advancement.

- **CyberforYOUth** program in association with Kendriya Vidyalaya Sangathan to phase 2 in the cities of Chhatarpur, Gwalior, Madhya Pradesh reaching out and educating to 2700 beneficiaries of grades 6 to 8 on cyber awareness.

- Phase 2 of the **Cyber Sainik** Program successfully concluded covering over 6,000 beneficiaries across Grades 11 and 12. During phase 2, sessions were conducted in Government schools across Mangalore, Udupi, and Mysore. In addition to student training, specialized sessions curated for school teachers.

- Launched the phase 1 of the **Cyber for HER** initiative supported by the British High Commission India and spearheaded by Rubix to enhance women's inclusivity in cyber security education. The program targets women pan India between the age group 18-23. Read more: www.dsci.in/content/cyber-for-her

- DSCI in collaboration with Kyndryl Foundation trained around 100 female engineering graduates as a part of the **CyberVaahini** program from in cybersecurity with placement opportunities in the industry.

GLOBAL TRADE AND DEVELOPMENT

- **DSCI Delegation to Black Hat, Middle East & Africa 2024**

A delegation of 13 leading Indian cybersecurity companies participated under this initiative, including: Accops, DNIF, Tsaaro, Innefu, PurpleSynapz, Seqrite, SaptangLabs, Protectt.ai, eSecForte, Sectrive, TechDefence, Wheni, and the Cybersecurity Centre of Excellence. Together, these organizations demonstrated innovations and solutions, positioning India as a trusted technology partner in the Middle East and Gulf regions.

The Pavilion was formally inaugurated by H.E. Dr. Suhel Ajaz Khan, Ambassador of India to Saudi Arabia.

The Pavilion also had the honor of hosting Ms. Manusmriti, Counsellor at the Indian Embassy in Riyadh, who actively engaged with members of the Indian cybersecurity delegation.

THOUGHT LEADERSHIP

Overcoming Multi-Cloud Security Challenges: A Unified Approach to Access Management
The future of Multi-Cloud Security lies in transformative risk-aware models that integrate context across numerous risk factors and address the unique challenges faced by organizations in multi-cloud environments. This approach will redefine identity and access management strategies.

India Cyber Threat Report 2024
The report provides a far-reaching analysis of India's cyber threat landscape, examining the evolving nature of cyberattacks, key trends, threat vectors, and their implications for organizations.

SAS Forensics - Seizure, Acquisition and Preservation of Data
The report covers the critical aspects of SAS forensics, covering the legal, technical, and procedural nuances of conducting forensic examinations, identification, acquisition, and analysis of SAS-enabled systems.

Assessing India's Cybersecurity Regulations in Telecommunications
The research supplements the GSF. Index's findings by providing a detailed analysis of India's cybersecurity regulations, applicable to Enterprises and Telecommunications Service Providers (TSPs) like the Critical Service Providers.

Privacy Due Diligence: A Practical Guide for Data Protection Impact Assessments
The report is a comprehensive guide designed to help Data Fiduciaries and Data Processors in organizations and strengthen data protection practices. It provides a practical framework for DPIAs, key considerations for data collection and sharing, and industry-specific considerations.

Reimagining Security: An era powered by Generative AI
The report highlights the current state of GenAI adoption in cybersecurity, its benefits, and the challenges that organizations face. It also explores the integration of Generative AI technologies.

Cyber resilience in hospitals: Safeguarding India's healthcare ecosystem in the digital age
The DSCI-Deloitte joint report highlights the rising cyber threats to healthcare, facing Indian hospitals today, highlighting key priorities and offering practical strategies to strengthen their cybersecurity defenses.

POLICY ADVOCACY

- **Policy submission to Department of Telecom on draft Telecommunications Rules 2024**

In response to the DoT's public consultation on the draft Telecommunications Rules, DSCI submitted its inputs examining and providing recommendations on the draft Telecommunications (Procedures and Safeguards for Lawful Interception of Messages) Rules, draft Telecommunications (Critical Telecommunication Infrastructure) Rules, and draft Temporary Suspension of Telecommunication Services Rules.

- **Webinar on DPDPA Compliance Guidance to Financial Service Providers**

Hosted the webinar with The Dialogue to focus on best practices in personal data processing across the banking, financial services, and fintech sectors. Along with discussions on consent and notice requirements under DPDP Act 2023, secure partnering with processors and sub-processors, and responsible use of personal data for credit, digital payments, and personalized offerings.

- **PriView – A Comprehensive Privacy Notice Generator**

DSCI and Priv by iDfy have collaborated on developing PriView- A comprehensive privacy notice generator that has been created in lines with the enacted Digital Personal Data Protection Act, 2023 (DPDPA) in India, which formalizes the requirement for a privacy notice and request for consent under the law. Know more about the tool: www.dsci.in/content/priview-privacy-notice-generator

AWARENESS AND OUTREACH

- Conducted the **Cyber Jagrookta Diwas** featuring a joint advisory session on the theme, 'Adapting to the Evolving Threat Landscape: Strategies for FY25' with the panelists Shanker Ramrakhiani, CISO, IIFL Securities and Ali Khan, Global Head, GRC, ZS

CYBER SECURITY AWARENESS MONTH 2024

DSCI celebrated the spirit of Cyber Security under the theme **"Secure Our World".** To champion the cause, DSCI continued to promote cybersecurity awareness encouraging individuals, businesses, and stakeholders to be a part of its Cyber Security Awareness Month (CSAM) 2024 drive, with the help of supporting partners - **Cred, HDFC Bank, IIFC, Kempegowda International Airport Bengaluru, Punjab National Bank, Protectt.ai and 25 Associates.**

Key Themes Delivered
- Social Media Safety
- Privacy Protection
- Digital Payment Safety
- App & Account Security
- Email Security
- Cybercrime Redressal

Campaign Outreach
- Screensaver/Wallpaper Downloads: 9,87,428
- Social Media Outreach: 4,19,92,060
- Emailer Communication: 30,567
- Webpage Visits/Views/Clicks: 1,79,940
- Awareness Quiz Participation: 47,208
- CSAM Sessions for Members (Outreach 8,000 & Sessions Conducted 50)
- Total Outreach: 4.3 million

SECURITY CHIPS: THE CYBERSECURITY PODCAST

EPISODE #11

HOW CAN DT SECURITY STRENGTHEN OVERALL CYBER SECURITY DEFENSES? | CISO'S PERSPECTIVE

Guest: Rajendra Bodhankarwar, former Executive Director – CISO of ONGC
Host: Bhupesh Jairath, Senior Consultant – Cybersecurity

LISTEN TO DSCI PODCAST

EPISODE #12

INDIA'S CYBERSECURITY GROWTH STORY: STARTUPS, TECH SURGE & OPPORTUNITIES

Guest: Mr. Dhanshan Shanthamurthy, CEO and Founder of SISA
Host: Aditya Bhatia, Principal Consultant, DSCI

LISTEN TO DSCI PODCAST

ANNUAL INFORMATION SECURITY SUMMIT 2024 - 19TH EDITION

- **3500+ Delegates**
- **300+ Speakers**
- **80+ Sponsors & Partners**
- **70+ Exhibition Booths/Experience Zone**

• 2 sub-summits on Digital Forensics & IOT security • 2 sub-events of Hackathon CTF & DSCI innovation box
• Winner of DSCI innovation box 'Aurva' • 14th Excellence Awards with 33 winners

- **Total no. of nominations:** 250 nominations
- **Most hotly contested category:** Security Leader of the Year (50 nominations)
- **3 Segments:** Corporate, Product and Law Enforcement
- **Total no. of categories:** 29 (including Security leader of the year sub-categories)
- **Total no. of winners:** 29 winners + 4 special jury recognitions

CENTRES OF EXCELLENCE

NATIONAL CENTRE OF EXCELLENCE (NCOE)

- Start-ups incubated during the 22nd selection round & evaluated by Mr. Rajesh Thapar CISO- NSE and Ms. Kanchi Dalvai- Regional Lead- Indian Angel Network.
  - **Astranova Labs Private Limited**
  - **Sytechsuk Technologies Pvt. Ltd.(Patronus)**
  - **Rhombes Cyberworks Private Limited**
  - **Mettleseni Systems and Technologies Private Limited**
  - **Ravesmail (Commvox technologies private limited)**
  - **PurpleDuck Labs Private Limited**
  - **Vedatarsha Solutions LLP**

CYBERSECURITY CENTRE OF EXCELLENCE (CCOE)

- Organized the cyber awareness workshop on **"Cyber Hygiene for Individuals and Security needs for the Enterprise"** for 40+ government officials and professionals to observe the cyber security awareness month. Delivered by Mr. Sakhrisha Singpurwala, he provided insights into various cyber-attack vectors and cybercrimes, and how to report them in golden hour using cybercrime.gov.in and other related portals.

- Incubated
  - **Purple Synapz** • **NopalCyber** • **PrivaSapien**
  - **Insigtree** • **Hackrew**

- In collaboration with The Hague Centre for Strategic Studies, the Embassy of the Netherlands, and the Government of Telangana, organized the **7th Annual India-Dutch Cyber Security School (IDCSS 2024)** with 3000+ registrations, covering 20+ topics on niche areas of cybersecurity and privacy, and had the highest participation and engagement out of all 7 editions.

- **Signed Academic MoU** with B V Raju Institute of Technology and Manav Rachana International Institute of Research and Studies, to equip students with cybersecurity skills & knowledge through research and training programs.

CENTRE FOR CYBERCRIME INVESTIGATION TRAINING & RESEARCH (CCITR)

- Trained 3980+ judicial officers from Karnataka Judicial Academy-Bengaluru, Officers from the Indian Air Force (IAF) & police personnel.

- Launched a report on *RAID Forensics - Seizure, Acquisition and Reconstruction of Data*. It was released by Shri. Kamal Pant IPS (Retd), DGP, Karnataka in presence of Shri. Sarfaraz Hussain Khtar, Additional Director, Karnataka Judicial Academy, Bengaluru, Dr. M A Saleem, IPS, DGP, CID, Karnataka.

- Trained 1500+ Police Personnel on Digital Investigation across 13 virtual sessions on topics including, RAM Dump Extraction and Analysis, Understanding Digital Payment Frauds, Browser Forensics, Cybercrime Coordination Portals for LEAs, Gathering OSINT from Websites, Case Study on Digital Arrest Scam, Investigation of Digital Payment Fraud Cases, and much more.

- Conducted 17 training workshops on topics including Cyber Law & Cybercrimes, Cybercrime Investigation Techniques Level 1 & 2, SImEc: Dark Web Data Collection and Analysis, Oxygen Forensics, Open-Source Intelligence (OSINT) Techniques and Social Media Investigation, RAID Forensics, Drone Forensics and Cryptocurrency Investigation, IT essentials for a cybercrime investigator, best practices for handling electronic evidence and more.

- Conducted 22 special sessions on a range of topics including India's Cyber Security Requirement, Emerging Cybercrimes: Key Trends and Prevention Strategies, Use of Tools for Digital Safety, Weaponizing AI and Tackling Cybercrime in the Modern Era, Handling Digital Evidence, Cybercrimes in VUCA world, to Overview of Digital Payment Fraud across BHIM, UMB, Amity University Rajasthan, MHTY, CNSIC, IRC, Karnataka Bn NCC, and CDTI.

- CCITR was featured in the World Economic Forum's Report on **Disrupting Cybercrime Networks: A Collaboration Framework** for its pivotal role in shaping India's cybercrime investigation ecosystem. Read report: www.weforum.org/publications/disrupting-cybercrime-networks-a-collaboration-framework/
