

## Over 150 experts to take the stage at NASSCOM-DSCI Annual Information Security Summit 2017 (AISS)

*...India meets for Security*

**New Delhi, 8 December 2017:** Data Security Council of India (DSCI) today announced the 12<sup>th</sup> edition of its flagship event, Annual Information Security Summit (AISS) between 13-15 December 2017 at The Leela Ambience, Gurugram, Haryana.

Organized annually by DSCI, it is one of the largest and most coveted industry summit focused on contemporary and futuristic technologies to address the global and national cyber security challenges. This year there is a special focus on privacy, data protection and emerging technologies. AISS, in its twelfth year promises to provide platform to over 1000 security professionals, leaders and influencers, policy makers, government, law enforcement officers and think tanks from diverse sectors, to deliberate on cyber security and data protection.

With over **150 speakers in 60** sessions, AISS 2017 will host plenaries, debates, keynotes, visionary talks, in-depth workshops, round tables showcasing rich security driven deliberations and call for action. AISS2017 revolves around Innovation & Entrepreneurship, Cognitive Security, Digital Payments, Capacity Building, Malware/APTs, Product Security & DevSecOps, Data Protection/GDPR, Security Journalism, Forensics and more.

**Rama Vedashree, CEO, DSCI said AISS 2017** *“DSCI continues to innovate to make AISS an enriching experience for the security leadership and entire ecosystem that spans nascent startups to global leaders, and customers spanning every enterprise vertical and government. This year we are bringing special focus on Strategic and Design Thinking to the domain of Cyber Security and deliberations on Use Cases and innovation agenda.”*

### Key Highlights

#### Focussed Topics

A glimpse of the few interesting sessions include Cyber Warfare, Democratization of Data, Machine Learning for Cyber Security, Crypto Debate, Scope & Future of crimes, Security Design Thinking, Cyber Security framework for Smart Cities and more would underscore the discussions at AISS 2017.
